

Collaboration

Curriculum Outcomes:

ELA:

Grades 6-8:

- Students will be expected to communicate information and ideas effectively and clearly, and to respond personally and critically
- Students will be expected to interpret, select, and combine information using a variety of strategies, resources, and technologies
- Students will be expected to use a range of strategies to develop effective writing and other ways of representing, and to enhance clarity, precision, and effectiveness

Science:

Grade 6:

- 204-1 propose questions to investigate and practical problems to solve
- 204-6 identify various methods for finding answers to given questions and solutions to given problems, and select one that is appropriate
- 207-2 communicate procedures and results, using lists, notes in point form, sentences, charts, graphs, drawing, and oral language

Grade 7:

- 208-2 identify questions to investigate arising from practical problems and issues
- 211-5 defend a given position on an issue or problem on the basis of their findings

Grade 8:

- 210-16 identify new questions and problems that arise from what was learned
- 211-4 evaluate individual and group processes used in planning, problem solving, decision-making, and completing a task

Social Studies:

Grade 6:

- 6.1.1 Explore the concept of culture and demonstrate an understanding of its role in their lives.

Grade 7:

- 7.2.3 Investigate the various ways economic systems empower or disempower people

Grade 8:

- 110-8 describe examples of how technologies have been improved over time
- 112-3 explain how society's needs can lead to developments in science and technology
- 210-16 identify new questions and problems that arise from what was learned

Technology:

Grades 6-8

- Students will practice critical thinking and problem-solving skills.
- Students will practice responsible citizenship.
